SUMMARY

Full Stack Developer (1.6 years) skilled in React.js, Next.js, Node.js, and Express.js, building scalable, production-ready applications. Focused on RESTful APIs, integrations, and clean, high-performance code.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, Context API, React Hooks, JavaScript, TypeScript, Ant Design, Material-UI (MUI)

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Third-Party API Integration, RBAC

Tools/Developer Utilities: Git, GitHub, Postman, Cursor (AI-assisted development)

Cloud & Databases: MongoDB, PostgreSQL, MySQL, AWS EC2, AWS S3, Route 53, CI/CD, GitHub Actions

EXPERIENCE

Fullstack Developer

October 2024 – March 2026

Prepseed

Ahmedabad, Gujarat

- Developed full-stack applications using React.js, Node.js, Express.js, delivering end-to-end solutions with dynamic UI, optimized RESTful APIs, efficient handling of complex workflows and large-scale data, and secure RBAC.
- Designed and integrated functionalities and third-party services for secure data handling; CRM experience with cross-functional collaboration. Deployed on AWS EC2 using Nginx, Route 53, and CI/CD via GitHub Actions.

Software Developer Intern

Oct 2023 – Jul 2024

Amnax Info Technologies

Ahmedabad, India

- Developed interactive dashboards using Angular, Material UI, and Spring Boot APIs, and implemented 2D/3D geospatial visualizations using OpenLayers and CesiumJS, enabling intuitive spatial data analysis.
- Optimized RESTful APIs and managed geospatial datasets using PostgreSQL and PostGIS, improving query performance and enhancing efficiency of location-based data processing.

Teaching Assistant (Freelancing)

Jan 2022 – Dec 2022

Arihant Sagar Academy

Ahmedabad, India

- Supported lesson planning, tutoring, and student assistance while strengthening communication, organization, and teamwork skills.

PROJECTS

JATF – Civil Services ERP System | *React.js, JavaScript, Node.js, Express.js, MongoDB, AWS (S3)*

- Engineered a scalable ERP platform using React.js, Node.js/Express.js, MongoDB/Mongoose, and RESTful APIs, streamlining the student lifecycle with CMS integration and secure role-based access control (RBAC).
- Developed multi-center exam workflows with attendance, bulk Excel uploads, approval systems, AWS S3, and reporting; built React.js (AntD, Context API) dashboards with real-time validations for data-driven analysis.
- Architected an interview panel management system with structured candidate allocation, evaluation tracking, and downloadable reports, enhancing coordination and reducing manual reporting overhead.
- Implemented a student leave and movement tracking system with check-in/check-out logs, real-time status monitoring, and automated Excel reporting (day-wise/monthly) using React Hooks and Express.js — increasing operational visibility and accountability.

Esvadhyaya – E-Learning Platform | *Next.js, Typescript, MongoDB, AWS (EC2, Route53), GitHub Actions, FCM*

- Developed an e-learning platform with approval-based onboarding, secure JWT authentication, scalable backend APIs, and responsive Next.js frontend for seamless content delivery and consistent user experience.
- Engineered a notification module for targeted broadcasts (users, batches, individuals) and built an online class scheduling system with real-time updates and FCM push notifications, improving communication.
- Built video lecture and study resource modules enabling subject-wise content upload (videos and notes) with automated notifications, while implementing online class management with attendance tracking, including integration of Zoom-generated Excel reports to ensure accurate student participation records.
- Deployed a Next.js application on AWS EC2 with Nginx configuration and Route 53 domain mapping, and implemented a CI/CD pipeline using GitHub Actions.

EDUCATION

• Bachelor's Degree in Computer Engineering

2020 – 2024

LJ Institute of Engineering and Technology, GTU

CGPA: 8.49
